Lane Closures on Front Street at Interstate 29/35

KANSAS CITY, Mo. – Traffic on Front Street at Interstate 29/35 will be reduced to one lane starting at 8:30 a.m. until 3:30 p.m. on February 3 and 4 while roadway crews set girders over Front Street. For the safety of motorists, there will be intermittent street closures lasting approximately 15 minutes at a time during girder placement. Each steel girder is 150 feet long and weighs approximately 27 tons. This is the first of several girder sets that will take place in February.

Girders will be lifted by a barge-mounted crane, across Front Street, to the new roadway work. The lane closures are necessary for crane and worker access on either side of the street.

All construction activities are weather-dependent and subject to change. Updated lane closure information for the kcICON Project can be found on the project's Web site at www.kcicon.com or by calling the information hotline at 816-841-8888.
