Levee Road On-Ramp to Northbound Interstate 29/35 Now Open

NORTH KANSAS CITY, Mo. – A new on-ramp is now open for motorists traveling from Levee Road to northbound Interstate 29/35. This is the fourth of 16 new ramps to open on the kcICON Project. With the opening of this new ramp, there will be a slight traffic shift to new pavement from Levee Road to Bedford Avenue on northbound Interstate 29/35.

The new entrance ramp is part of a collector-distributor system, featuring longer ramps that minimize weaving in interstate traffic lanes and allow motorists to cross easily from Levee Road to Bedford Avenue without entering the flow of interstate traffic. This new configuration will also accommodate more vehicles than the previous ramp, and make it easier for motorists to enter the highway at a greater speed.

“We really appreciate the public’s patience and cooperation while we reconstruct the corridor,” said kcICON Project Director Brian Kidwell. “We’re working as quickly as possible to provide much improved access to and from the Paseo Industrial District.”

All construction activities are weather dependent and subject to change. Updated lane closure information for the kcICON Project can be found on the project’s Web site at www.kcicon.com or by calling the information hotline at 816-841-8888.
