Traffic Shift on Northbound Interstate 29/35 at 16th Avenue

NORTH KANSAS CITY, Mo. – Tomorrow there will be a slight traffic shift to new pavement at 16th Avenue on northbound Interstate 29/35. This shift allows the contractor to expand pavement replacement work between the northbound and southbound lanes.

“We really appreciate the public’s cooperation while we reconstruct the corridor,” said kcICON Project Director Brian Kidwell. “2010 will be this project’s biggest and busiest year of construction. Motorists should drive with caution and abide by the posted and advisory speed limits throughout the corridor. Daily commuters may want to consider alternative routes to avoid construction delays.”

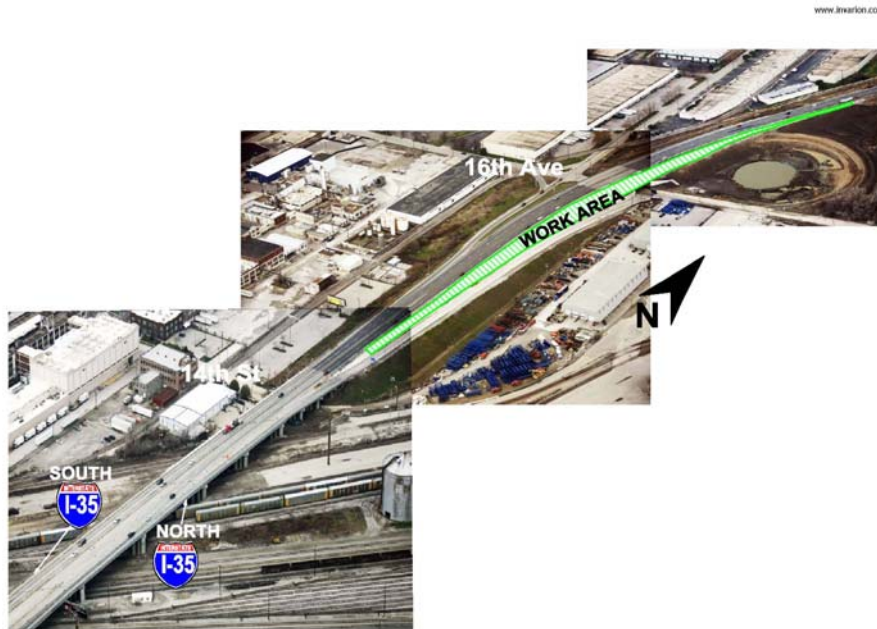

All construction activities are weather dependent and subject to change. Updated lane closure information for the kcICON Project can be found on the project’s Web site at www.kcicon.com or by calling the information hotline at 816-841-8888.
